DUAL WHEELS GUIDE

2021

INSIST ON A TRS DUAL WHEEL SOLUTION!

Who Are We?

Established in 1977, TRS has grown to become the largest distributor of Agricultural tyres and wheels in NZ. Originally established as a small family business, TRS was acquired by Trelleborg Wheel Systems in July 2018.

TRS Tyre & Wheel is dedicated to being the largest supplier and manufacturer of agricultural tyres and wheels that consistently meet the needs and expectations of our customers. Through our knowledge, honesty, competitive prices and friendliness, TRS aims for excellence in the way we provide tyre and wheel solutions to the agricultural sector.

Why TRS and Snaplok?

TRS have been manufacturing Dual Wheel Systems for more than 40 years.

Through our experience and knowledge, TRS can manufacture Dual Wheel Systems to suit all applications and size of tractor. Specialist designs are available to maintain the overall width within specific parameters or for specialist applications such as row crop. Snaplok is the only Dual Wheel System designed and manufactured in NZ specifically for NZ conditions. By adding a dual wheel, the tractor benefits from increased traction with extra lugs on the ground and yet reduced ground compaction from the increased footprint. More rubber on the ground, increased tractor width and extra 'bite' into the earth provides improved stability and safer operating.

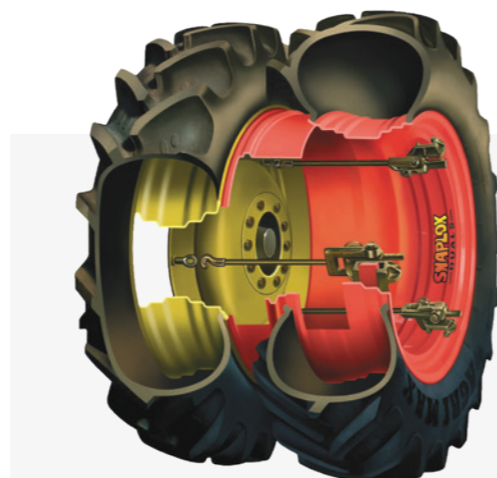

SNAPLOX DUALS DUAL WHEELS GUIDE 2021

Inner Tyre	Dual Tyre	Tyre Brand	Clamps per rim
340/85R28 380/70R28 440/65R28	13.6R28 (340/85R28)	MITAS	3

Snaplok Duals

New Zealand's favourite Dual Wheel system for over 40 years. Made right here specifically for New Zealand conditions.

Trelleborg

Trelleborg's premium European-manufactured tyre brand. The Trelleborg range includes multi-award-winning Progressive Traction® technology with unrivalled performance providing great productivity for users.

Mitas

Manufactured in Europe by Trelleborg, Mitas is the quality tyre choice for NZ farmers.

Mitas tyres provide a reliable performance with long service life, preserving power, fuel-efficiency and the environment proven by its strong OEM presence. Mitas has produced tyres since the 1930s and the name Mitas has been used since 1947.

Cultor

Cultor is part of the Trelleborg Wheel Systems family and provides customers a European-manufactured tyre an entry-level pricing.

Specialist row crop dual wheel systems

Designed from TRS, an innovative Dual Wheel system to cope with growing demand from Rowcrop farmers for a Dual Wheel system that can be easily removed but does not damage crops. A further advantage of this system is that the Dual Wheel can also be designed with a bolt pattern and offset to suit inner fitment on another tractor within the fleet, providing maximum versatility and cost effectiveness.

Bar axle hub dual wheels

TRS also supply Bar Axle Hub Duals to suit tractors supplied with bar axles. Ideal for large horsepower tractors, Bar Axle Duals allow for the spacing of both the inner wheel and dual along the axle.

TRS Branch Locations:

Auckland Branch

7 Offenhauser Drive, Auckland

Head Office / Wanganui Branch

1 Imlay Place, Wanganui

Hamilton Branch

15 Norman Hayward Place, Hamilton
